Director's Note

MAMMA MIA! is based on the songs of ABBA, a Swedish pop/dance group active from 1972-1982. This juke-box musical debuted in London in 1999 and has been a smash hit worldwide. For those of us raised in the 70's and 80's ABBA was played at every disco and dance we attended. For those of us born after 2006 (our current students) this music and story is a piece of history. We have had the time of our lives learning about the free spirited 70's and the greatest dancing era ever (at least to this 70's director!)

At its core, the story is about a mother and daughter and how one defines a family. Families take many shapes, but what is most important is the love we have for each other.

Stand up, turn on your phone flashlight, and sing and dance with us during the Encore Songs!
